

Welcome to the CIP Map Viewer (Draft 2015 - 2020)

Once you open a browser and type the following URL <http://pwecip.houstontx.gov/> into the address bar, you will encounter a popup window that looks like the one below. Here you will have the option to view the Rebuild Houston video and check out for other useful links at the bottom of the popup window.

- Click [Close](#) to close this Video popup window and continue to the CIP Map Viewer.

To display this video popup window at any time during the map navigating, user can click the icon  from the map tools.

A. To View CIP Projects

You can view the CIP project by using the left panel selection:

1. Select Project category

2. Select Project Stage

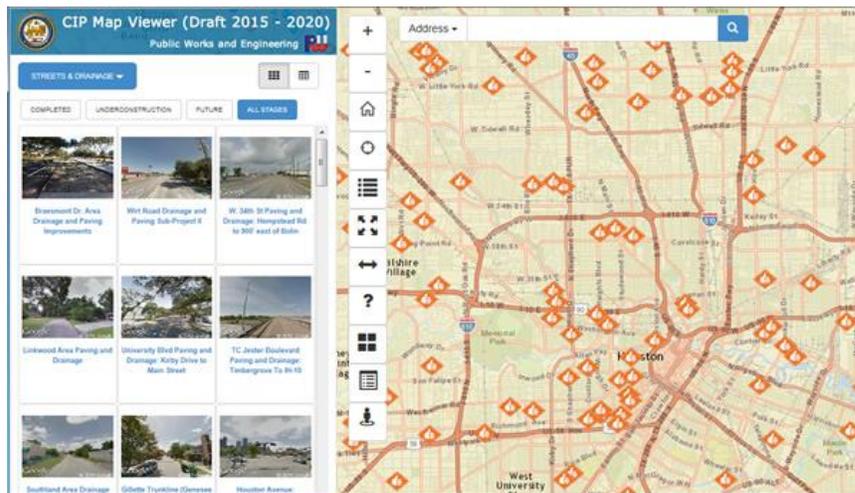

COMPLETED This tab displays Completed CIP Projects for the Group you selected.

UNDERCONSTRUCTION This tab displays Under-Construction CIP projects for the Group you selected.

FUTURE This tab displays Future CIP projects for the Group you selected.

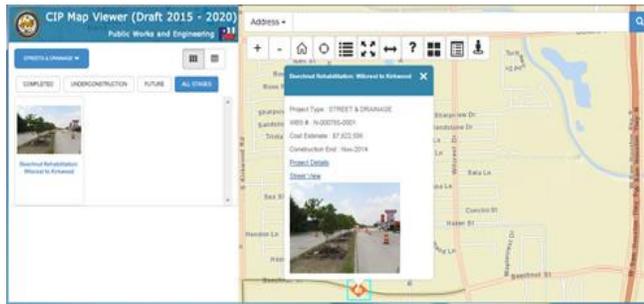

ALL STAGES This tab displays All Stages CIP Projects for the Group you selected.

Once you have selected a stage, you will see a list of CIP Project photos associated with the project stage and the project category you selected. A project name is provided at the bottom of each project photo. Additionally, the projects points will be populated on the map in the right panel.

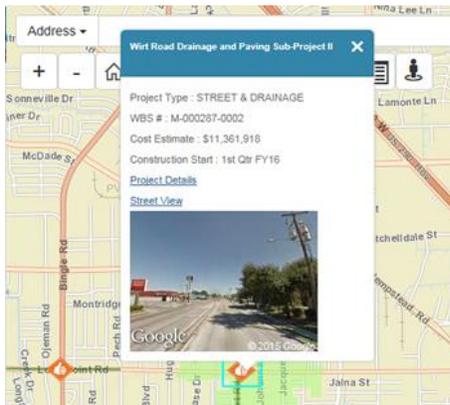

3. Select specific project

Click on a selected project photo, the map zooms in to that selected project and the project information displays in a popup window. Project information includes WBS#, Cost Estimate, Construction Start, Construction End, link for Project Details and link for Street View. If any of the project information attribute is not available, the popup window will not show that attribute. A screenshot of the Project popup window is below:

Click **X** to exit the project popup window.

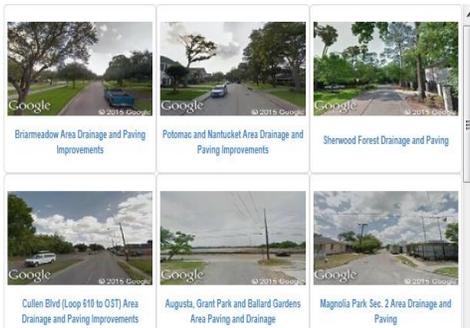

You can also click the project point on the map to popup the project information window. For Future project, you will see additional Street View link as below. Click on **“Street View”** link, a new tab will open the Street view location of the project.

User can Toggle between View Thumbnails or View Table listing

a. Click  to view projects in Thumbnails format

b. Click  to view projects in Table format

PROJECT NAME	PROJECT TYPE	STAGE	COST ESTIMATE
Beechnut Rehabilitation: Wilcrest to Kirkwood	STREET & DRAINAGE	COMPLETED	\$7,922,595
Bellaire Access Management: Rodgerdale To Mary Bates	STREET & DRAINAGE	UNDER CONSTRUCTION	\$21,928,950
