

Welcome to the CIP Map Viewer (Draft 2015 - 2020)

Once you open a browser and type the following URL <http://pwecip.houstontx.gov/> into the address bar, you will encounter a popup window that looks like the one below. Here you will have the option to view Rebuild Houston video and check out for other useful links at the bottom of the popup window.

- Click [Close](#) to close this Video popup window and continue to the CIP Map Viewer.

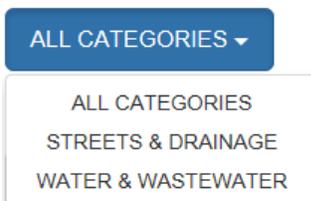

To display this video popup window at any time during the map navigating, user can click the icon  from the map tools.

A. To view CIP Projects

You can view the CIP project by using selection as following:

- Select Project Group category**

- **Select Project Status**

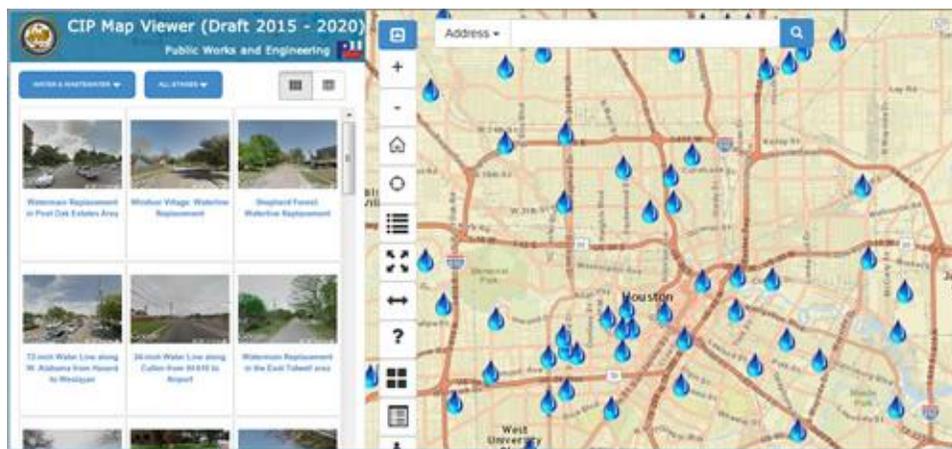

COMPLETED This tab displays Completed CIP Projects for the Group you selected.

UNDERCONSTRUCTION This tab displays Under-Construction CIP projects for the Group you selected.

FUTURE This tab displays Future CIP projects for the Group you selected.

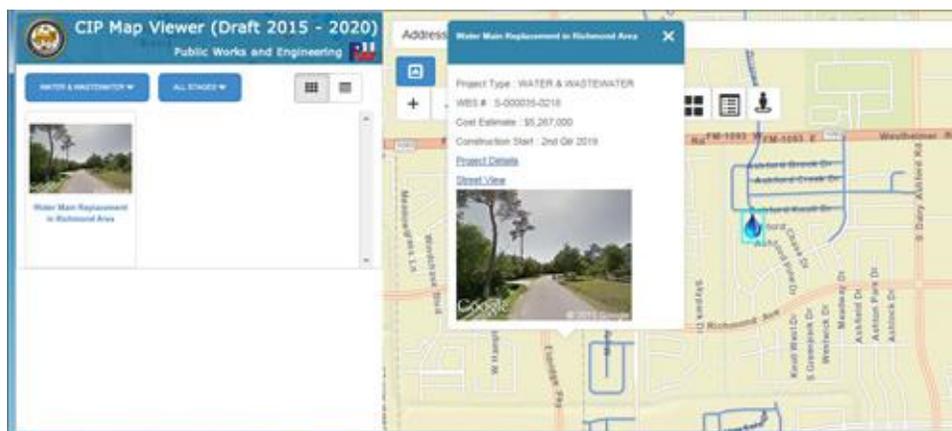

ALL STAGES This tab displays All Stages CIP Projects for the Group you selected.

Once you have selected a status, you will see a list of CIP Project photos which associated with the status and the group you selected. A project name is provided at the bottom of each project photo. Additionally, the projects points will be populated on the map in the right panel.

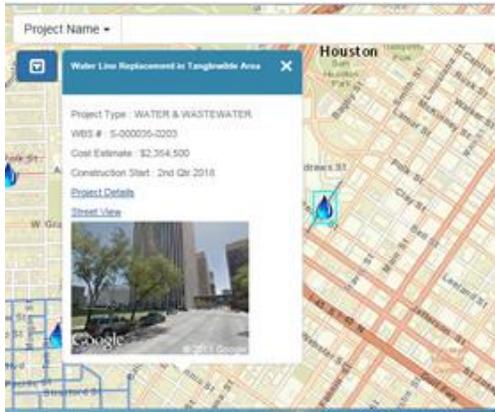

Select specific project

Click on a selected project photo, the map zooms in to that selected project and project information is popup in a window. Project information includes WBS#, Cost Estimate, Construction Start, Construction End, the link for Project Details and link for Street View. If any of the project information attribute is not available, the popup window will not show that attribute. A screenshot of Project popup window is as below:

Click **X** to exit the project popup window.

You can also click the project point on the map to popup the project information window. For Future project, you will see additional Street View link as below. Click on **“Street View”** link, it takes you to Street view location of the project.

B. To navigate the map
